**PPIA Endorsement Policy**

PPIA's policy is to endorse incumbents with 100% pro-choice voting records. If there is no pro-choice incumbent, PPIA's policy is to endorse viable candidates who provided 100% pro-choice answers to our questionnaire.

In addition, we have listed candidates who, although not endorsed by PPIA, have demonstrated support for women's health care through their record as a public official or by providing 100% pro-choice answers to our questionnaire. Support for women's health care includes support for access to birth control, abortion, and comprehensive sexual health education.
